WELCOME MESSAGE

Dear Colleagues,

It is our great pleasure to welcome you to the ISNR Mid-Term CME 2026, being held on 29–30 August 2026 in Lucknow.

This meeting has been thoughtfully designed to provide an enriching academic platform that brings together leading experts, practicing neuroradiologists, neurointerventionists, radiologists and residents from across the country. Over two days, the conference will feature state-of-the-art lectures, interactive case discussions, oral paper presentations, and hands-on workshops covering the latest advances in neuroimaging and neurointervention.

Our scientific programme encompasses a broad spectrum of topics, including pediatric neuroradiology, neuro-oncology, stroke imaging, vascular malformations, spine imaging, advanced neuroimaging techniques, and contemporary neurointerventional procedures. Dedicated workshops on carotid intervention, mechanical thrombectomy, intracranial aneurysm management, and neuroimaging optimization for radiographers and technologists have been planned to provide practical, evidence-based learning.

Beyond academics, we hope this meeting will foster meaningful discussions, encourage collaboration, and strengthen professional relationships within the neuroradiology community.

We sincerely thank our distinguished faculty, delegates, sponsors, and organizing team for their invaluable support and participation. Your presence will make this meeting a memorable academic event.

We wish you an enjoyable, productive, and inspiring experience in Lucknow.

Welcome to ISNR Mid-Term CME 2026!

ABOUT ISNR

ISNR is an academic society dedicated to teaching and practice of the specialty of neuroradiology including Imaging and interventions and boasts of about 700 members.

The medical science changes rapidly with constant technical innovations and addition of new knowledge, thus substantially changing the way we know and practice our specialty.

This is particularly true for neurosciences which is a thrust area for most new technical innovations, thus expanding our horizon constantly. The society endeavours to impart knowledge and educate trainees and practicing neuroradiologists, so that current 'state of the art' techniques are mastered and up to date 'standard of care' is delivered.

The society conducts its annual conference every year to bring neuroradiology practitioners together, so that they can share their ideas and experience as well as interact with imminent national and international faculty.

The annual conference was held at New Delhi for three years starting 2017. The society also encourages conduct of CME's and regional conference under the aegis of ISNR in different parts of the India. The continuous virtual academic activities are also done in the form of Monthly Webinars and Case of the week.

PROGRAM SCHEDULE - HALL - A - DAY 1

Session 1 - Pediatric Neuroimaging

Chairpersons - TBD

Time	Talk	Faculty
08:00 – 09:30	Oral Paper Presentation (8 min presentation + 2 min discussion per paper)	JUDGES - Dr. Gaurav Raj, Dr. Saifullah, Dr. Namita, Dr. Zafar
09:00 – 09:30	Tea & Registration	
09:30 – 09:50	Imaging Approach to Malformation of Cortical Development	Dr. Sameer Vyas (PGIMER, CHD)
09:50– 10:10	White Matter Disorders in Children	Dr. Bejoy Thomas (SCTIMST)
10:10 – 10:30	Pediatric Spinal Disorders: Imaging Approach	Dr. Saifullah (AMU)
10:30 – 10:50	Pediatric Neuro-Oncology	Dr. Arpita Sahu (TMH, Mumbai)

Session 2 - Pediatric Stroke

Chairpersons - TBD

10:50 - 11:30	Pediatric Stroke- Current Standard of Practice	Case Presentation By Dr. Madan, Dr. Dewansh, Dr. Sarfraj followed by Talk by Dr. Navin Mulimani
11:30 – 12:30	Inaugural Ceremony	Prof. RK Dhiman (Director SGPGIMS) Prof. Archana Gupta (HOD,Radiodiagnosis)
12:30 – 13:30	Lunch	—

PROGRAM SCHEDULE - HALL - A - DAY 1

Session 3 - Pediatric Neurointervention

Chairpersons - TBD

13:30 - 13:50	Vein of Galen Malformation: Imaging & Intervention	Dr. Ajay Kumar (PGIMER, CHD)
13:50 - 14:10	Pediatric Pseudo Aneurysm	
14:10 - 14:30	H&N Vascular Malformation of Childhood	Dr. Rashmi Saraf (KEM, Mumbai)
14:30 - 14:50	Pial Arteriovenous Fistulas	

Session 4 - Neurointervention

Chairpersons - TBD

14:50 - 15:10	Aneurysm Coiling: From Basics to Advanced Techniques	Dr. Tariq Matin (ARTEMIS)
15:10 - 15:30	Carotid Cavernous Fistula: Imaging & Intervention	Dr. Chirag Jain (Safdarjung, Delhi)
15:30 - 15:50	Dural Arteriovenous Fistulas	Dr. Matthew Cherian (KMCH)

Session 5 - Neuroimaging

Chairpersons - TBD

15:50 - 16:10	Neuroimaging of Gliomas	Dr. Kajari Bhattacharya (TMH, Mumbai)
16:10 - 16:30	Non-Glioma Brain Tumours: Case-Based Discussion	Dr. Sanket Dash (Yashoda, HYD)
16:30 - 16:50	Imaging of Spinal Tumours	Dr. Deb Boruah (AIIMS, Guwahati)
